

ONLINE SECTION - 12 weeks

The class will be conducted as an online class. This section uses Canvas, which is a Learning Management System (LMS) that will house the materials for the class and will be the vehicle for submitting assignments.

An online course does not meet in the classroom, there is no scheduled meeting time. Notes and videos will be made available in Canvas. There are still assignments due weekly, but during the week you work self-paced. Instead of raising your hand when you have a question, you would email me or attend one of my office hours.
