

**AIDAN VARKOLY**

**2/1/18**

# **MESQUITE STD**

This is a sans-serif font that has bold and Italics, it is sort of like an old western kind of text. Although it can be hard to read in smaller text so I would suggest using a larger font size.

## **Comic Sans MS**

This is of course a Sans-Serif text hence the name, it has bold and italics and it is quite easy to read in all shapes and sizes and is good for some *Comic* relief.

# **SPACE CRUSADER**

**IF YOU ARE LOOKING TO TRAVEL 1 MILLION WORDS AWAY THIS IS THE FONT FOR YOU. THE FONT HAS DOESN'T REALLY NOT TO BE BOLDED OR CAPITALIZED BECAUSE THE DIFFERENCE IS VERY MINIMAL. IT DOES ALSO COME WITH ITALICS AND IS A MORE OF A SLAB TYPE FONT.**
